A giraffe is a tall animal with a long neck and legs. It has a spotted skin that helps it blend in with trees and bushes. Giraffes live in Africa and like to eat leaves from tall trees. Their favourite food is acacia leaves, which they grab with their long tongues. Giraffes are peaceful and do not fight much. They can run fast, even though they look slow because of their long legs. The young giraffes, called calves, are already pretty tall when they are born. They are about as big as a grown-up person. One of the most incredible things about giraffes is that they have huge hearts to pump blood up to their heads. Their necks might be extended, but they still have the same number of neck bones as people, just bigger ones.

Popular artists like Yo Maps, Macky 2 and Slapdee sing songs about love, family and life in Zambia. Many of them sing in local languages such as Bemba and Nyanja, which makes the music easy for people to understand and enjoy. Some artists also sing gospel music to share messages of hope and faith.
