Jishimikila 1

When I was young,I partly lived on the copperbelt as well as in the North western of Zambia.I was born in Kitwe,Chamboli TownShip in Wasakile Mine Hospital.After a good number of years on the Copperbelt,My parents retired and re-located to Kasempa in Nkenyauna.Life on the Copperbelt was so precious,we lived in an electrified house.In kasempa,we used lamps and candles.But this did not surpass the kind of enjoyment I attained while in the village.Nkenyauna was an elite place.It was full of elite families who equally got retired from elsewhere.

However, what got me intertained most was, whenever we went to play football by the ground, we always received un expected visitor. And this was a Kalulu.It would enter the pitch and disturb everyone. we would all want to catch it but using its trick movements, many people would be left crawling and eating the the grass. Anyway such never happened on the copperbelt.

In a small village, there was a eighth grade teacher named Mr adams. He wasn't just any teacher; he had a way of making every student feel important, smart, and capable.

One day a new student named Kisasa joined the class. He was shy, struggled with reading, and often sat quietly in the back. Other students were quick to notice his struggles, and some even teased him. But Mr Adams saw something special in Kisasa.

Instead of scolding the class for teasing the boy, Mr Adams decided to teach them a lesson in kindness. The next day, he brought a small plant into the classroom. He placed it on his desk and asked, "What does this plant need to grow?"

"Water"

"Sunlight"

"Good soil!" the student answered.
